ESCAPE TO A WHOLE NEW WORLD

**Without Leaving the
Comfort of Your Home**

Sometimes getting away doesn't mean having to leave. With your new NorthWind Hot Tub™ you have a key to your own personal paradise that you can access anytime and for however long you like. The perfect retreat that you can share with friends and family to create a unique atmosphere for socializing, romance or relaxation.

NorthWind Hot Tubs have modern styling, tranquil water features and powerful hydrotherapy jets. You will get the features of a high-end hot tub without the expensive price tag. So relax, we make getting into hot water affordable and easy.

MADE IN CANADA BUILT FOR EXTREME CLIMATES

NorthWind Hot Tubs are handmade in our ISO 9001:2008 Quality Certified Manufacturing Facility and built to withstand even the harshest Canadian winter. Our superior quality begins with the forming of the Hot Tub shell from a single sheet of premium acrylic which is then reinforced with up to 12 layers of Owens Corning® fiberglass. The shell is then connected to a pressure treated frame and fitted with premium equipment and components. Before a NorthWind Hot Tub is shipped, it goes through an extensive quality control procedure, wet running test and a series of test to ensure that it stand the test of time and perform flawlessly for your friends, family and loved ones for years to come.

PERFECTLY SIMPLE.
EL SERIES

The NorthWind EL Series comes in four models and includes everything you need in a hot tub. EL Series Spas consist of two 7 Foot models and two larger 8 Foot models. Each size is offered with a relaxing lounge seat or roomy upright seating. Once you've chosen the size and style that is perfect for you, then simply decide if you would prefer 25 Jets with a single high-performance pump or, for those serious about hydro-massage therapy, 40 Jets with dual performance pumps.

Choose your Acrylic Color and any available Optional Features to enhance your lifestyle and your new NorthWind EL Series Spa is ready for years of enjoyment.

AVAILABLE WITH:

- True Ozone Purification System
- MultiColor Dual Underwater Lights
- MultiColor Lit Water Ropes

STYLE & PERFORMANCE.
SL SERIES

The NorthWind SL Series has six models with various styles and sizes to choose from. SL Series Spas come standard with a commercial-grade pressurized filtration system. A pressurized filtration system is 83% faster and 20% more efficient than skim filtration systems found on other Hot Tubs. With a Pressurized Filtration System the filter cartridge is housed outside of the bathing area and contained in a top-access canister whereas a Skim Filtration System filter is installed in the main hot tub area under the water surface. Pressurized Filtration is the best filtration system available on any hot tub and is included on each SL Series NorthWind Spa.

SL Series Spas can be customized to fit your lifestyle perfectly. Choose from a large selection of Acrylic and Cabinet finishes, purification options, audio and lighting packages, aromatherapy and more.

AVAILABLE WITH:

- Premium Commercial-Grade Pressurized Filtration System
- Choice of Acrylic Color and Cabinet Finishes
- Stainless Steel Hydrotherapy Jets
- Customization Ability
